

CUSTOM FIT CERAMIC WIRE KITS

ACCEL now offers the cure for burnt spark plug boots with Extreme 9000 Ceramic wire kits. The 8mm Ferro-Spiral core wire now has ceramic boots on the spark plug end of the wires. Ceramic boots withstand up to 2,000°F. Great for running headers with close tolerances, an engine bay with little room, or an RV with boots that melt because of heat. Ultra high temperature double silicone construction wire rated at 600 degrees fahrenheit peak. 500 ohms/ft Ferro-Spiral core developed for performance use. Excellent energy delivery to the spark plugs, while providing the highest level of RFI/EMI suppression. Stainless steel spark plug terminals for maximum spark energy to the plugs. Pre-made to factory lengths for a perfect fit.

Extreme 9000 Custom-Fit Ceramic Wire Kits	Part #
Buick 1986-87 Regal, GN, GNX 3.8L Turbo	.9028C
Chevy/GMC Truck V8 1975-86 w/HEI	.9011C

135° Boots	.9002C

CERAMIC SINGLE WIRE REPLACEMENTS

Great replacements for that one damaged or cut wire. The single lead allows you to build your own single replacement wire. Simply cut the wire to desired length, install the boot and terminal, and install on your vehicle. Kits include a 60" 8mm Extreme 9000 Ceramic wire with the ceramic boot pre-installed, 90° boots and terminals for points and HEI caps, along with a straight points-style terminal and boot.

Description	Part #
Single Wire Replacement Lead with 180° Ceramic Boot	.170900C
Single Wire Replacement Lead with 90° Ceramic Boot	.170901C
Single Wire Replacement Lead with 135° Ceramic Boot	.170902C

ACCEL[®]

ELIMINATES BURNT PLUG BOOTS FOREVER!

This NEW ACCEL Point of Purchase display includes 3 sets of Extreme 9000 Ceramic Boot Wire sets and a colorful header card that is complete with an actual Ceramic Boot for maximum sales impact.

- Ceramic spark plug boots cannot be burned – even if the headers glow red
- Spiral wound wire core delivers maximum energy to the spark plugs
- Improves engine performance, quicker throttle response and reduced emissions
- Perfect for extreme use vehicles like hot rods, racecars, trucks and RV's

The POP display has a small footprint, measuring only 9-1/4" by 11" which is sure to fit easily on any counter top.

The POP display kit includes 3 universal Extreme 9000 Ceramic Boot Wire sets: one each of #9000C w/Straight Boots, #9001C w/90° Boots and #9002C w/135° Boots, a 4 color header card with a sample Ceramic Boot and wire lead, a store banner, decals and an ACCEL catalog. #74270G
